

I like to μ

I like to μ in my sleep,
I do it after counting sheep.
 μ -code is really cool,
Finished code is such a jewell.
I like to μ all night long,
 μ -pushups make me strong.
 μ -code takes macro think,
 μ -macro to the brink.
I like to μ while I sit,
My mind works best with grody shit.
 μ -programs are so small,
 μ -arg and μ -call.
Every morning — μ -shower,
Make my bread with μ -flour.
 μ -ones and μ -zeds,
Always in my μ -headz.
Now you know the μ -way,
How I μ night and day,
Just got one more thing to say,
No can do for μ -pay!!!
