David F. Huynh + Robert C. Miller + David R. Karger CSAIL **DO-IT-YOURSELF DATA INTEGRATION** http://simile.mit.edu/potluck/

Do-it-yourself data integration often involves conceptually simple tasks

that anyone can understand without requiring abstract data modeling knowledge.

Dragging and dropping fields creates columns in a tabular view and plots data on a map view.

Ising POTLUCK, novice users can ccomplish conceptually simple data integration tasks hrough simple user interface interactions rather than through omplex programming or abstract data modeling operations.

Dragging and dropping fields also merges columns and creates filtering controls for exploring the data.
