What? Why?

- Colors of liquids, creams, and powders used to transform physical appearances
- High and Low levels of transformation
  - Everyday makeup, party makeup, stage makeup, special FX makeup
- Styles change over time
- To feel new, to feel different, to have fun

Getting Started

- Need certain tools
  - Brushes
  - Sponges
- Skin preparation
  - Cleansing
  - Moisturizing

Face Shapes

- Determine Face Shapes to have most complimentary makeup application

- Square
- Heart
- Round
- Long
- Oval

General Application Process

- Determine Face Shape and Skin Tone
  - Skin tones include: black, olive, fair, asian
- Decide on style of make preferred
  - Day vs. Night
  - Color vs. Neutral
- Style of makeup determines which areas to enhance and which areas to shade
  - Shading begins to change face shape or enhance important features
- Each facial element is transformed one by one to change the face entirely or minimally
  - Brows, eyes, cheeks, lips, etc.
  - Usually focus on either eyes or lips

Using cream base and foundation colors, the face is highlighted with lighter shades and shaded with darker shades.
Using foundations, face powders, blushers, eyeshadows, eyeliner and mascara, and lip colors, the face is transformed in many different ways.

- Many different effects can be achieved depending on eye shape, color, size, inset, and brow shape
  - Using natural, creamy, matte, and glossy shadows with liners

• Thin, uneven, shapeless, full, and color unbalanced lips can all be fixed using lip liners and colors
• Drawing lines outside the natural lip line help create fuller lips
• Drawing lines inside the natural lip line help create thinner lips

Transformation
Makeup application leads to transformation

Kevin Aucoin
Recreate past actresses from present ones with makeup and lighting effects

Demi Moore
Demi Moore as Clara Bow
Clara Bow

Courtney Love
Courtney Love as Jean Harlow

Barbra Streisand
Stage Makeup

- Makeup that strengthens features so they can be seen from far away
- Makeup that creates characters
- Using
  - Cream and Greasepaint, Aqua and dermacolour, Eyeshadow and liner, Pencils and mascaras, Lipsticks and blushers, Brushes and sponges, Dayglo and uv makeup, Remover and setting powder, Hair and moustaches

Aging, Balding, Hair Growth Effects

- Aging
  - Emphasize age lines – nose, mouth
  - Remold face with Patches of shadows not just lines
- Balding
  - caps
- Hair Growth
  - Fake hair applied to head, face and other areas

Balding effect

Hair Growth Effect
Special FX Makeup

- Using blood, prosthetics, latex and nose putty, and spirit gum, special effects makeup is created
- This type of makeup is used for advanced special effects such as those you see in abstract and surreal films and television shows
  - Ex: horror films like Dracula

Other Gruesome Effects
