

SOME IDEAS

- ✿ Use CHDK to provide new features to Canon compact cameras
- ✿ Use flickr API to do something creative
- ✿ Explore different types of gradient reconstructions
- ✿ Improve time lapse
- ✿ Handle small parallax in panoramas
- ✿ Exploit flash/no-flash pairs
- ✿ Editing with images+depth (e.g. from stereo)
- ✿ Smart color to greyscale
- ✿ Face-aware image processing
- ✿ Sharpening out-of-focus images using other pictures from the sequences
- ✿ Application of morphing/warping
- ✿ Motion without movements and automatic illusions
