DISTRIBUTION

- J. Couleur, G.E.
- A. Evans, Carnegie Tech.
- B. Galler, Univ. of Michigan
- H. Krenn, NASA
- V. Vyssotsky, Bell Telephone Labs.
- R. Fano, MIT
- E. Glaser, MIT
- R. Graham, MIT
- F. Corbató, MIT
- M. Daggett, MIT and M. Wagner, MIT
- R. Daley, MIT and M. Bailey, MIT
- S. Dunten, MIT and M. Child, MIT
- L. Pouzin, MIT and G. Schroeder, MIT
- P. Crisman, MIT and R. Orenstein, MIT

Enclosed is a copy of the Design Notebook for the next computer utility system of Project MAC. Some of the material is proprietary to G.E. so that the entire notebook should be treated accordingly. Suggestions are welcome.

In the case of some of the MIT copies it is expected that they will be shared to keep the distribution list down.

DESIGN NOTEBOOK

for the

Time-Sharing System on the
Modified GE 635 Computer

F. J. Corbató

Editor

October 1964

Copy No. 18

This material is a working document of the system implementation.
GE proprietary information is included. It is for internal Project
MAC use and should not be reproduced.

DESIGN NOTEBOOK

April 23, 1965

Table of Contents

Section

- I. Introduction, Philosophy, goals, tasks.
- II. A Proposal for GE 636 Segment Conventions.
- III. A Proposal for a Minimal Assembler, GAP, for the G.E. 636.
- IV. The SHELL: A Global Tool for Calling and Chaining Procedures in the System.
- V. RUNCOM - A Macro-Procedure Processor for the 636 System.

Appendix

- A. Memo MAC-M-182, by E. L. Glaser
- B. Description of Equipment, letter from J. Weil to R. Fano, June 1964.
- C. Note of Nov. 20, 1964, J. Couleur
- D. Memo CC-241, by R. Daley, R. Creasy and R. Graham
- E. Programming Staff Note 32, by M. Bailey and R. Daley
- F. Library Subroutines, Commands, File Organization, by L. Pouzin
- G. User Interrupts, Commands Console I/Ø, and User Option Switches, J. Saltzer
- H. On the Format of Files Containing Programs, by J. Saltzer
- I. Memo CC-250-1, MAC-M-223-1 (with supplement), by F. J. Corbató
- J. Assembly Programs in a Time-Sharing System, by J. Saltzer
- K. On Providing a Keypunch Facility for the G.E. 636, by J. Saltzer
- L. Memo MAC-M-229, by S. Dunten
- M. Allocation of Time-Sharing System Resources, by J. Saltzer

Bell Laboratories Part

- B.I. A Survey of the Software for the GE 636, by P. Neumann, V. Vyssotsky
