Gary B. Walker, Business Manager, Project MAC,
545 Technology Square, Room 803

Re:
Rental of Space, 545 Technology Square

This is to advise you that during the early part of 1973,
probably April 1, we will have no further need for the space
currently used for the Multics hardware operations.

Please let me know what official action other than this is
necessary to ensure the cancellation of rental for this space
in and around this time frame. In addition, because of some
previous misunderstandings regarding prior anticipated can-
cellations, I strongly suggest that you do not consider this
notice as a guaranteed commitment, but a timely estimate better
than one year in the future.

Please keep in touch with us.

Weston J. Burner
Director
