Mr. Fred Normand, ISIS  
Rome Air Development Center  
Air Force Systems Command  
Griffiss Air Force Base, New York

Dear Mr. Normand:

Thank you for sending me the advance draft of RADC's evaluation of Multics. I have looked it over quickly and I must say I am impressed by the diligence and effort which was put into the project. My overall reaction is that the most credible thing about the report is that it has addressed the Multics system by means of several case studies of attempted use. I feel that this technique of evaluation was a very effective one.

Sincerely,

F. J. Corbató  
Professor of Electrical Engineering  
and  
Group Leader, Computer Systems Research
