6.274 Newke in design
12 hrs.

Use All logic All Board
Plug into 10M
attach to common peripheral channel
will work with 600 or 10M

1 12-inch board
50 ~ 100 chips
\$1.5 / chip kind extra
~ \$1,000

low driver for distant interposer.

Paper design - Nov 10
Final copy ~ End of Semester (6-11)
first trial ~ Dec 1
(If chips not coming, will build a test prototype)

need scope, pulse generator, wire wrap, etc.

Distant Interposer - IAP or little later,

Need two of channels on 645 F
