HARDWARE - E. D. Kleinow

Processors

- Parity errors occurring and crashing system, from both CPU's A&B. FED still unable to pin this problem down, but has exchanged CM boards from A to B. This was done on the 20th of July and has not failed since.

Printer

- PRT 301 lamp assembly failed and was replaced.

Tapes

- Unit #6 down for extended period. A rectifier assembly and fuse had to be replaced.

SOFTWARE - P. B. Kelley

- System 28.10 installed and running. 28.11 is scheduled for installation next week.

- IOI connect problems have caused several crashes on the network.

- Problem with salv_print_online has been fixed in 28.10.
