cc: List

SUBJECT: Forum Minutes for June 16, 1976

ATTENDEES: R. J. Chevalier R. A. Roach
 W. J. Flaherty L. J. Ryan
 E. D. Kleinow J. R. Steinberg

HARDWARE - E. D. Kleinow

Processors

- . CPU-B..... FED replaced failing chip on cache board.
- . CPU-A..... "Scan with Mask" reinstalled and operating with no problems.

MTH500

- . 2 failing chips on SB board replaced.
- . Unit 2 had servo boards and 12V regulator replaced.

DSU190

- . Area 8 down. This unit has failed and crashed Multics twice in recent days. FED is working on problem.

SOFTWARE - R. A. Roach

- . Multics crashed 5 times related to software problems during 5-29 to 6-11. The IMP DIM problem was fixed in 28.6d and the Bootstrap problem was corrected in 28.6A.
- . 28.8 installed.

BILLERICA

- . Billerica has 2 active projects but will be moved to BCO by 6-30-76.
- . Flaherty requested a 190B to be moved to Billerica. Leo Ryan says it is okay to move the spare out.

TO: List of Attendees

SUBJECT: Forum Minutes for July 14, 1976

ATTENDEES: R. J. Chevalier R. A. Roach
P. B. Kelley L. J. Ryan
W. McFall J. R. Steinberg

HARDWARE - W. McFall

Processors

- .Cache parity errors occurring - FED has run available T&D's with no success in resolving problem. Latest suggestion from Phoenix was to swapp Cache Cables. FED has requested assistance from CISL.

DSU190

- .B units are ready for return to Billerica, except for one unit to remain as temporary spare.
- .A compatability errors. FED will schedule test to resolve problem.

PRT301

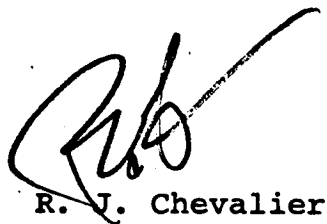

- .Extended down time (24 hours) over weekend. FED will review parts supply for this unit.

SOFTWARE - P. B. Kelley

- .System 28.9 running.
- .Reconfiguration bug scheduled for fix in 29.0.
- .On-Line salvager bug scheduled for fix in 28.10.
- .Salv___print___on-line scheduled for fix in 28.10.

OTHER

- .PRT 202 and (3) 190B disk units are available to return to Billerica. Transportation arrangements will be made with Leo.
