

Need another category: JOINTLY MODIFIED ~~AND~~ SOFTWARE  
anything which is developed by cooperative agreement  
between (HLS) & MIT.

- CISC & MIT agree (in advance) which things are  
so designated.
- Probably most work done initially is in this  
category
- Rights similar to "original U.S." with  
open splitting for 4 years after copyright date.

Everything in the system needs a label.

- I.T.S. is jointly copyrighted.
