John, Jerry -

*- We are doing nothing about this now -
- The "installation" people will have to add this
function as part of their job
- when is the committee notice placed?*

Attached is a draft contract re Multics Software

rights. Don't know what approval status is and in
certain that HIS/MIT lawyers don't want us discussing
it but....

Pse review, especially items marked on
p5. Any ideas on how that might be implemented.
