Subject: Project Guardian
Request for Proposal

Gentlemen:

Reference our letter dated 17 September 1976 which provided a revised Statement of Work for MIT effort from 1 July 1976 through 30 September 1977.

Honeywell requests that MIT review that portion of effort from 1 October 1976 through 30 September 1977, and determine if there is any change in effort of the proposed work as stated in your proposal dated 23 July 1976.

It is further requested that MIT either confirm in writing that the 23 July 1976 proposal covers the revised Statement of Work or provide a revised proposal by 24 September 1976.

Your proposal is needed to support Honeywell's submittal of a revised proposal to the Air Force.

If there are any questions, please contact the undersigned or Mr. L. Verdery, Program Manager.

Very truly yours,

R. L. Carlson
Sr. Contract Administrator
