Attention: Mr. J. P. Conolly

Subject: Subcontract Project Guardian  
Contractor Furnished Development  
Computer Time

Gentlemen:

Reference my correspondence dated 7 September 1976 which notified MIT that resolution of a subcontract for the Project Guardian effort has not been accomplished. As part of the subcontract agreements with MIT, Honeywell has been providing Contractor Furnished Development Computer Time. This part of your subcontract also requires resolution and requires definition and control by both MIT and Honeywell.

Since a subcontract has not been defined for the Development Computer Time, you are hereby notified that use of these services are no longer authorized as of 14 September 1976.

Honeywell is desirous of reaching an understanding in this matter and remains receptive to further discussions with MIT.

If I can be of further assistance in this matter, please contact me at your convenience.

Very truly yours,

R. L. Carlsen  
Senior Contract Administrator
