November 24, 1971

To: Data Terminal Account Supervisors

Subject: Data Terminals

IBM 2741 data terminals currently in use at M.I.T. are equipped with 5 RPQ's. These RPQ's are:

RPQ	Monthly Charge	
Automatic Address Answerback	$12.00	$32/mo.
Red Ribbon Control	10.00	
Print Inhibit Control	10.00	
Transmit Interrupt Control	8.00	
Inhibit Auto EOT	10.00	

Transmit interrupt control is now the only essential RPQ for MULTICS and CP/CMS as a result of recent software changes. CTSS still requires automatic address answerback.

Should you wish to have any of these RPQ's deleted from your IBM 2741 data terminals, and the corresponding RPQ's from Datel 30's and/or Novar 5-41's that you are responsible for, please so state in written form to this office. Please indicate which RPQ's you want deleted from which specific data terminal.

M. Berlan

$32
15 2741's
$480/mo.

15 2741's
7 1050's
2 M37's
1 Datel
1 ARDS
26 Total
