Large Systems Department  
Engineering  
C. W. Dix, Manager

*C. W. Dix*

We will plan to forward a "counter proposal" which should not differ fundamentally from your proposed arrangement and thus should prove acceptable to yourself and Mr. Mills. Allowing for the appropriate internal reviews and for the Phoenix plant shut-down period of 14-25 July, we should have our counter proposal in your hands the first week in August.

While there are items of rather significant substance in your proposal that require careful review and perhaps revision, it appears at this time that the basic elements of a mutually satisfactory arrangement are present.

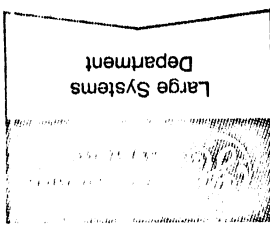

This is to acknowledge receipt of your letter of 26 June containing your proposal for continuation of the MULTICS Program.

Prof. J. C. R. Licklider  
Director of Project MAC  
545 Technology Square  
Cambridge, Mass.
