Dear Doug:

Your name is now on our external distribution list. The best source of information and help on BCPL as well as for PAL is Art Evans, whose current address is:

Dr. Arthur Evans, Jr.
Lincoln Laboratory
Post Office Box 73
Lexington, Mass. 02173

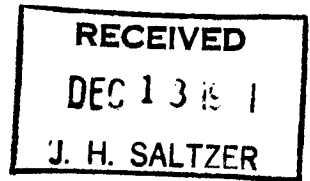

Your note is the first I had heard of an NMSU SIGPLAN/SIGACT meeting in January! I hope that you misread the notice, since I was not expecting to participate.

Sincerely yours,

Jerome H. Saltzer
Associate Professor of
Electrical Engineering

Cambridge, Massachusetts

Dear Jerry,

As we discussed at Palo Alto, I would like to be put on the MULTICS mailing list. I would also like to have any current information on BCPL*, and am interested in doing an XDS Sigma implementation of it if none is available. I plan to write Art Evans about PAL, and will ask you to forward that letter unless I obtain his address first.

I notice you are on the program of the NMSU SIGPLAN/SIGACT meeting in January. I expect to be there.

Many thanks for your help.

Sincerely,

Douglas Eastwood
Associate Professor

DE/1a

* I meant to ask if you would pass this request on to whoever is appropriate.
