Jerry —

Talked to Charles Clinger.  
GE printed only 150 cy each  
Multics - Fortran, Multics - PL/I Guides.  
150 cy went to EPC.

He was happy at my suggestion  
we reprint these Guides for MAC needs.  
We are planning to make 150 cy of each,  
distribute by same system as for MPM.  
~~XXX~~

On MPM: if GE could receive  
the full 60 cy they originally expected,  
all their needs would be met. They  
agree to pay for copies over this number.

Memo to

Jerry Saltzer

Room

Ext.

IPC has ~60 copies of MPM on hand. The selling pace has slowed to 1-2/day. They'll call me when they're down to 30 copies.
