Subject: Distribution list for MPM System Programmers' Supplement (SPS)
and MPM Subsystem Writers' Supplement (SWS)

Along with the splitting of the old SPS into two manuals, the SWS and the SPS, we have revised the distribution pattern for the manuals. Enclosed are three lists:

1. The SPS distribution list.
2. The SWS distribution list.
3. A list of fifth-floor CSR staff and helpers common to all distribution lists.

The SPS distribution list will, tentatively, also be the M00/G00 distribution list, unless someone identifies a need for separation. It is substantially shorter than it used to be: 84 copies now as compared with 164 before. For the moment, MCB's and MOSN's continue their old distribution pattern, to a wider audience than desirable. We need to get together to plan a graceful way of trimming those lists.

So far, only three requests for additional SWS's have been received. In preparation for additional calls for the SWS, we are preparing 25 copies. Until the first two or three updates to the SWS have been issued, it does not seem appropriate to charge users for the SWS; once it is cleaned up, we could distribute it just like the MPM and PL/I manual, through IPC, for the cost of reproduction.
