

w/ Scott

0/2/00

- Review proposed simplified model
- HSI problem: more precise to take perf benefits
- MLC problem: ... and reaction to more vector units
- Performance trade-offs now?
- Response time blocks options

Goals (Scott)

1. A&A solution to HSI with proposed the custom card solution
(with higher management level)
2. A&A identify other vendors or willingness to buy to bid

Need a response time criteria

Model

- 75% of service
- response time
- 60 minutes / month

Will send + 10 vectors.

2 M x 36

4.54

144²

1x

162 / hour.
