

Results of Test run 2 3 processor

11/11/68

1. Seg-fault Distribution has same shape
but totals are much smaller at all points.
Seg fault ~~*~~ went ⁴⁷⁰⁰ \rightarrow 383 in predicted, 37% time in s.f.
2. Short page faults disappeared on predicted.
3. Long page faults still there.
 \therefore Average climbed ~ 16 ms/fault.
Still 10% of all p.f. ≥ 32 ms.
