

06 Honda

Accord Coupe

A sporty cockpit that fits like a glove.

Vehicle Stability Assist (VSA) on V-6 models.

We're giving thrill seekers
a faster-moving target.

Six gears. 244 horsepower. Zero compromises.

Accord EX V-6 Coupe shown in Sapphire Blue Pearl.

More proof that pulses were made to be quickened.

The Accord Coupe has it all, striking the perfect balance between flat-out fun, cutting-edge technology and everyday luxury. So it was a challenge finding ways to improve it. But we did—with more safety features, more powerful engines and sportier styling both inside and out. It still has everything people love about Honda's take on scorching two-door performance. For '06, there's just more to love.

Accord EX V-6 6-speed Coupe shown in Alabaster Silver Metallic.

Grip the brushed aluminum shifter in a 6-speed manual transmission-equipped EX V-6. That's a powerful feeling. V-6 MT models also get exclusive 17" wheels and carbon fiber-look interior trim.

Sharply honed power rack-and-pinion steering.

Eat up corners with a double wishbone front suspension and 5-link double wishbone rear design. They team with precisely damped shock absorbers for a smooth, planted feeling in the curves.

Front and rear stabilizer bars limit body roll.

Most models feature 4-wheel disc brakes with ventilated front rotors. And the Electronic Brake Distribution (EBD) system on EX and V-6 models balances braking forces at each wheel.

Accord EX V-6 Coupe shown in San Marino Red.

244-hp, 3.0-liter VTEC® V-6 engine.

Choose a quick-shifting 5-speed manual transmission or an available 5-speed automatic in 4-cylinder models. In V-6 Accords, go with the standard 5-speed automatic or opt for a 6-speed manual.

166-hp, 2.4-liter i-VTEC 4-cylinder engine.

VTEC adjusts valve timing and lift to increase low-end torque as well as high-rpm power. In the 2.4-liter engine, i-VTEC adds variable timing control (VTC), boosting power and economy.¹

4 valves per cylinder for easy breathing.

Take a bigger breath. With new intake and exhaust tuning for 2006, both Accord engines now pump out more horsepower. A new Drive-by-Wire Throttle System™ in the 4-cylinder engine smooths the power delivery. And the new Maintenance Minder system monitors how you drive and reminds you when it's time for service.

¹Does not apply to fluid and filter changes. Exact mileage is determined by actual driving conditions. Please see your owner's manual for more details.

Be worry-free, thanks to tough internals like forged-steel crankshafts. Legendary Honda reliability is a given – all Accord models can go 100,000 miles or more before their first required tune-up.*

Maybe you'll feel like taking your own sweet time. Maybe.

Space to keep essentials close at hand.*

Accord EX V-6 Coupe interior shown in Black Leather with available Honda Satellite-Linked Navigation System.³

XM² delivers over 150 digital-quality channels—and all music channels are commercial-free.

Audio flows from a 120-watt, 6-speaker AM/FM/CD system. EX models add a 6-disc in-dash CD changer. And XM[®] Satellite Radio² is included on the leather-trimmed Accords.

All descriptions of driver-focused design pale in comparison to one defining moment behind the wheel of the Accord Coupe. Deep-bolstered seats hug your form, while sporty gauges get your attention. Steering wheel-mounted controls for audio and cruise control are at the ready on most models—as is a button to activate the voice recognition feature on navigation system-equipped models.

*Drive responsibly. State laws prohibit distracted driving.

Accord EX V-6 6-speed Coupe interior shown in Black Leather with available Honda Satellite-Linked Navigation System.³

As good as it looks, it may feel even better. Immerse yourself in an environment complete with luxuries like air conditioning with an air-filtration system. With the available leather trim, you also get heated front seats and dual-zone automatic climate control. And 6-speed models pump up the audio with a 180-watt system.

A sense of direction you can actually trust.

Extraordinary technology is at your fingertips with the Accord's available Honda Satellite-Linked Navigation System.³ A GPS receiver teams with a DVD-based database of maps and points of interest to guide you to your destination.* And with voice recognition, you can zero in on a target by simply speaking a command.

*Some roads unverified. See the navigation system owner's manual for more details on coverage.

Get turn-by-turn directions and voice prompts.

Select a database location or enter an address.

Find the shortest distance between two points, the nearest gas station or a bite to eat. The navigation system features an 8.0-gigabyte DVD database of more than 7 million points of interest, as well as maps of just about everywhere you can drive in the contiguous United States.* The system's large 7-inch touch screen, integrated joystick and moving map display make it easy to select and find just what you're looking for.

With the voice recognition feature, you can issue over 600 voice commands, like "find nearest ATM." Operate the audio and climate controls, too – with your hands never leaving the wheel.

Safety for Everyone, applied.

Safety starts with giving you more control.

Vehicle Stability Assist (VSA) is now standard on Accord V-6 models. VSA is a sophisticated system that can sense oversteer and understeer, and can brake individual wheels and/or reduce engine power to help keep the driver on the intended path of travel.

The Accord Coupe's impressive array of safety features helped it earn a 5-star crash-test rating from the National Highway Traffic Safety Administration (NHTSA) in frontal impact testing.[†]

In Accord V-6 models, traction control—a function of VSA—helps limit wheel slip under acceleration. It enhances your ability to get under way safely, even on slippery or wet road surfaces.

Honda's **Safety for Everyone** philosophy is more than a motto—it takes shape in the advanced safety features of our vehicles. Every Accord has standard Daytime Running Lights (DRL), ABS brakes and front, front side and side curtain airbags. And now V-6 Accords feature standard Vehicle Stability Assist (VSA) as well. It's that kind of thinking that earned several Honda vehicles 5-star crash-test ratings.[†]

*Honda reminds you and your passengers to always buckle up. Children 12 and under are safest when properly restrained in the rear seat.
 †National Highway Traffic Safety Administration frontal crash test: December 2002. Government star ratings are part of the National Highway Traffic Safety Administration's (NHTSA) New Car Assessment Program (NCAP), found at Safercar.gov.

Front and rear crush zones are designed to help absorb impact energy before it can reach the passenger compartment. This rigid safety cell is reinforced to resist the intrusion of impact forces.

Systems designed to react and protect.

Anti-lock braking (ABS) helps maintain steering control under hard braking. And on V-6 and EX models, Electronic Brake Distribution (EBD) balances the braking forces according to load.

Technology of future industry standards – now.

The dual-stage, dual-threshold front airbags* inflate at one of two rates and thresholds, depending on the severity of impact and seat-belt use. Front side and side curtain airbags help prevent injuries in the event of a sufficient side impact. And an Occupant Position Detection System (OPDS) will prevent deployment of the front passenger's side airbag if a child or small-statured person is in its path.

The Accord Coupe's front seat belts with pretensioners automatically tighten in a sufficient impact. And outboard rear seats offer the LATCH (Lower Anchors and Tethers for Children) system.

For a high-tech firm, we're pretty down to earth.

Soichiro Honda founded the Honda Motor Co. in 1948 to help people get around with affordable, dependable transportation. Within a few short years, Honda was one of the world's preeminent motorcycle manufacturers—just the first of our many successes.

All along, our guiding principle has been to listen to people and understand their needs. So we design and build our products in the markets where they're used. We place great importance on safety engineering and on being friendlier to our planet's environment. We never forget that driving should be fun. And we believe that the power of ingenious thinking can make great things possible.

We're always looking ahead.

Advanced Honda thinking takes many forms. This is ASIMO, the world's most advanced and capable humanoid robot. Along with being a prime example of pure Honda ingenuity, this remarkable machine could

also one day help improve the lives of many people who have limited physical abilities.

Honda has long led the way in making Earth-friendlier cars. The latest is our advanced zero-emission FCX fuel-cell car—the first certified for U.S. commercial use.

It's the only air we've got.

Honda has joined with GE—the world's largest maker of jet engines—to bring to market the Honda-developed HF118 jet engine. It offers highly fuel-efficient and low-emission performance for aircraft.

Safety engineering meets reality here.

“A company is most clearly defined neither by its people nor by its history, but by its products. Our products will speak the truth about Honda.”

Soichiro Honda, Founder, Honda Motor Co., Ltd.

Honda has been assembling cars in the U.S. since 1982. Today, close to 4 out of 5 Honda vehicles sold in the U.S. are assembled in North America – with the help of over 550 U.S. supplier companies.

Over 27,500 American associates pitch in.

Our advanced safety research facilities play a critical role in the evolution of our automotive **Safety for Everyone** effort. Through a comprehensive and evolving approach to vehicle safety, Honda seeks to provide a high level of occupant and pedestrian protection in all of our cars and trucks, regardless of size or price, as well as increased crash compatibility with other vehicles.

Generators, outboards, lawnmowers, personal watercraft, cars, trucks, motorcycles, ATVs and more add up to Honda's being the world's largest engine maker.

Racing makes for quicker engineers.

Racing improves our products – and our engineers' ability to innovate. Honda's latest victories include the first four places in the 2005 Indy 500, topped by Dan Wheldon of Andretti Green Racing.

Accord EX V-6 Coupe shown in Graphite Pearl.

Accord EX V-6

Accord LX V-6

Accord EX V-6 6-Speed

Accord is continually praised by those who are trusted to note the cream of the crop. *Consumer Guide*[®] named it a "Best Buy."⁴

And for 19 of the past 23 years, *Car and Driver* has placed Accord on its prestigious "10Best" Cars list. Just two more reasons to keep the Accord at the top of your own list.

Accord LX Coupe

- 166-hp, 2.4-liter i-VTEC 4-cylinder engine
- Drive-by-Wire Throttle System
- 5-speed manual transmission
- Available 5-speed automatic transmission
- 4-wheel double wishbone suspension
- Front, front side and side curtain airbags
- Anti-lock braking system (ABS)
- Daytime Running Lights (DRL)
- Tilt and telescopic steering column
- Air conditioning with air-filtration system
- Cruise control
- 16-inch alloy wheels

Accord EX Coupe

Adds to or replaces LX features:

- 4-wheel disc brakes
- Electronic Brake Distribution (EBD)
- Power moonroof with tilt feature
- Heated side mirrors
- Ambient console lighting
- AM/FM/6-disc in-dash CD audio system
- Available leather-trimmed interior with heated front seats, 8-way power driver's seat, dual-zone automatic climate control system and XM Satellite Radio²
- Available Honda Satellite-Linked Navigation System³ with Voice Recognition

Accord LX V-6 Coupe*

Adds to or replaces LX features:

- 244-hp, 3.0-liter VTEC V-6 engine
 - 5-speed automatic transmission
 - Vehicle Stability Assist (VSA) with traction control
 - Brake Assist
 - Driver's seat with 8-way power adjustment
 - 17-inch alloy wheels
 - 4-wheel disc brakes
 - Electronic Brake Distribution (EBD)
 - Power moonroof with tilt feature
 - Heated side mirrors
 - AM/FM/6-disc in-dash CD audio system
- *Manual transmission not available.

Accord EX V-6 Coupe

Adds to or replaces LX V-6 features:

- Leather-trimmed interior
- Heated front seats
- Dual-zone automatic climate control system
- XM Satellite Radio²
- HomeLink[®] remote system⁵
- Available Honda Satellite-Linked Navigation System³ with Voice Recognition

Accord EX V-6 6-Speed Coupe

Adds to or replaces EX V-6 features:

- Close-ratio 6-speed manual transmission
- Perforated leather-trimmed interior
- Carbon fiber-look interior trim
- 180-watt AM/FM/6-disc in-dash CD premium audio system
- Exclusive 17-inch alloy wheels
- Front shock tower bar
