1.10.4 Running *Lisp under DJM 35

Chapter 2 DJM Administration 39

2.1 DJM Overview 40
2.1.1 DJM Daemons and Commands 40
2.1.2 DJM Partitions 45
2.1.3 DJM Modes 45
2.1.4 DJM Queues 46
2.1.5 Queues, Scores, and Scheduling 47
2.1.6 DJM Configuration Files 48
2.1.7 Privileges 52
2.2 Running DJM 53
2.2.1 Initial Startup 53
2.2.2 Normal Operations 55
2.3 When Things Go Wrong 63
2.3.1 Log File 63
2.3.2 Trace Files 63
2.3.3 Checkpoints 64
2.3.4 If **jstat** Hangs 64

Chapter 3 DJM Reference 67

jconnect 68
jdel 70
jmsg 72
job 74
jop 82
jrun 92
js 96
jstat 97
jsub 118
jwait 128

Appendix A Global Configuration File **131**

Appendix B Queue Configuration File **137**

Appendix C Score Equations **141**

C.1 Score Equations for Queued Jobs 141

C.1.1 Queued Score Fields in the Queue Configuration File 142

C.2 Score Equation for Running Jobs 143

C.2.1 Running Score Fields in Queue Configuration File 143

Appendix D Partition Configuration File **145**

D.1 Defining the Current Partition 146

D.2 Defining the Future Partition 148

Appendix E Sample Job File **151**

Appendix F DJM Configuration File **155**

F.1 **`sitename`** Field 155

F.2 **`machine`** Field 155

F.3 **`master`** Field 156

F.4 **`server`** Field 157

F.5 **`client`** Field 157

F.6 Directories and Files Fields 158

F.7 Utility Programs Fields 159

Appendix G NQS Compatibility **161**

G.1 Queues 161

G.2 **`qsub`** and **`jsub`** Options 162

G.3 Submission Requirements 163

G.4 Shells 163

Index **165**
