**What is a Picture?**

*Frédo Durand and Julie Dorsey*  
*MIT-Lab for Computer Science*

## *Photoshop assignment*

- Perspective
  - Converging perspective is OK in the 3D real world
  - It is not in 2D
- Distracting elements
  - Are usually not distracting in “reality”
  - But are harder to “filter out” in the picture
  - The image does not “read” as well

What is a picture?

2

## *Reading*

- Photo-surrealism
  - Unable to detect discrepancy
  - Non realistic physics helps tell story
- Jet Lighter
  - New approach to making images
  - Photos are the new building block to make photos
  - Very different from traditional montage
  - The same may happen to cinema (Lucas)

## *Discussion*

- Visions of Light

What is a picture?

4

## *Visions of Light*

- Intuition, realize afterwards
- Craft, not art
- Dominance of the actor
  - Must be beautiful
  - No shadow on faces
  - Dietrich more luminous, pops out
- Film noir
- Color in The Last Emperor
- Communication Director Photo-director

What is a picture?

5

## *Visions of Light*

- Formal rules / breaking rules
  - The rules are broken, not eliminated
  - Only when necessary
  - The counter-example does prove the rule
- Difficulty with new language
  - Silent to talky, Black and white to color, wide format
- Invention
  - Technological
  - Pictorial, new language
- Importance of fresh eyes
- To be “realistic”, do not use formal rules

What is a picture?

6

## Relativism of realism

What is a picture?

7

## Questions

- What makes a picture a picture
- Would a 100% faithful hologram be a picture?
- Could it be artistic
  - Would it be better than a “normal” picture
  - Would it be inferior?
- Example of cinema
  - Static to dynamic
  - Silent to talkie
  - Black and white to color
  - 3D

What is a picture?

10

## Reality

- Objective, physical
- May be imagination
  - But always references to reality

11

## The Artist

- Visual system
  - Not straightforward!

- Political
- Gender
- Artistic

### *Conditions*

- Darker
- Distance
- Etc.

## Perception

- Is the perception of pictures different from the perception of reality?

What is a picture?

19

## Perception picture/reality

- Photos usually do not look distorted
- Why is the photo of the photo distorted?

What is a picture?

20

## Picture vs. Reality

- We see reality the way we see pictures
- Not the other way around
- Make up
- Stage lighting
- Statues as 2D views
- Architecture un-distortion

What is a picture?

21

## Message, selection

- How can the artist transmit a message and select what the viewer perceives

## Goals of pictures

- Optical vs. Haptical
- What we see vs. What we know

What is a picture?

38

## *Duality of pictures*

- Pictures are both
  - Flat 2D objects
  - Depictions of 3D scenes
- The dialectic between these two essences is crucial

60

### *Is it 2D, is it 3D?*

What is a picture?

61

### *What makes it 2D*

- The surface of the picture is visible
- The marks are visible (brush strokes, grain, scratching film...)
- Absence of one visual channel (color, texture...)
- Letters
- Accidental viewpoint
- Absence of shading
- “non-realism”

What is a picture?

What is a picture?

65

### *Do we always need photographs?*

- Focusing on the 2D aspect emphasize the “potential” side

What is a picture?

66

### *Perspective correction*

- 3D verticality must be translated as 2D verticality

What is a picture? Snapshot-Perspective-Speed, aperture-Filter-Lighting-Processing & Print-Make up-Retouching 67

### *Perspective distortion*

- The 3D symmetric sphere is projected as a 2D asymmetric ellipse

### *The School of Athens, Raphael*

- Sphere should project to an ellipse

### *3D and 2D attributes*

- Show a dice to children (~6-7)
- They usually draw a rectangle
- The rectangle can stand for one face

What is a picture? 70

### *3D and 2D attributes*

- Show colored or numbered dice to children (6-7)
- The still draw a rectangle
- But different colors or many points

What is a picture? 71

### *3D and 2D attributes*

- The notion of 3D object with corners is translated as a 2D object with corners
