

**Table 1:** The approximate OpenTCP overhead for a network with  $\sim 4000$  nodes and  $\sim 100$  switches for different Oracle refresh cycles.

| Oracle refresh cycle<br>Overhead | 1 min | 5 min | 10 min |
|----------------------------------|-------|-------|--------|
| Oracle CPU Overhead (%)          | 0.9   | 0.0   | 0.0    |
| CCA CPU Overhead (%)             | 0.5   | 0.1   | 0.0    |
| Data Collection (Kbps)           | 453   | 189   | 95     |
| CUE Dissemination (Kbps)         | 530   | 252   | 75     |
