**MAKE NEW FRIENDS** and decide where to hang out. Connect to fascinating people nearby, with schedules similar to yours. Stay clued in to stuff happening around you and be spontaneously social.

**BUILD YOUR IDENTITY** and help define others. Find out what people think about you and influence the reputations of the people you met.

**ORGANIZE AN EVENT**, pick the place and time: spur-of-the-moment, or months ahead. Join a gathering in your area, meet new people or enjoy the same great crowd. Have a blast with your friends and build up a history of fun times together.

**RE:PUBLIC** remembers the people you liked, chatted and met with. It uses this information to maintain a ranking of your top friends and acquaintances, and to help you remember, too.
