Q13. What is good about the course?

1. Content very useful. SVN, JC, Randoop etc
2. Prof. KIM is very smart and nice.

Q14. What could be done to improve the course?

1. More clear guidelines on project. Spent many time on doing the project but not being emphasized in presentation (5 minutes for final presentation !?) . Not enough instructions on what to do in presentation. The first presentation seems to be a sales pitch more than the a COMP course presentation
2. remove the CI server part

Note: Please note that the aggregate statistics for department, school and university will be subjected to an updating and finalized on 2 July 2014
