# Lambda Calculus (1930s)

$$(\lambda y. \lambda x. y) z \rightarrow \lambda x. z$$

$$((y) \rightarrow (x) \rightarrow y) z \rightarrow (x) \rightarrow z$$

# Turing Machines (1936)

A fanciful mechanical Turing machine's TAPE and HEAD. The TABLE instructions might be on another "read only" tape, or perhaps on punch-cards. Usually a "finite state machine" is the model for the TABLE.
