 DATE: March 20, 1978  
 SUBJECT: Installation of New Version of macro\_asm for MCS

I. SYSTEM CHANGE LOG

MCR MODIFICATIONS FOR INSTALLATION

3058 Increase storage limit used in 355 macro creation. This adds a 'limits' card to macro\_asm, the GCOS job used to create the FNP macro library, so that the storage limit for the 'sysedit' activity is now 255K.

N.B. the MCS version number has not been updated to reflect this change.

II. SEGMENT CHANGE LOG

SEGMENT NAME

macro\_asm R
