SUBJECT: Installation of MSS 20.111

The hardcore system, MSS 20.111, was initially installed at
3:50 PM on Friday, September 28, 1973. MSS 20.111 was pulled at
1:15 AM on Sunday, September 30, 1973 due to a newly introduced
bug. A corrected version of MSS 20.111 was installed at 10:55 AM
on Monday, October 1, 1973. Change # 1145, which replaced pc.pl1
in bound_page_control, fixed THE reused address bug. The system
libraries were updated at 3:05 PM on Monday, October 1, 1973.
