MULTICS INSTALLATION BULLETIN

TO: MIB DISTRIBUTION

FROM: Arlene Scherer

DATE: November 2, 1973

SUBJECT: ONLINE INSTALLATION CHANGES

The following is a list of changes to the standard service system, maintenance tools, author maintained and installation maintained libraries for the week beginning October 29, 1973.

          HOW TO READ THIS LISTING:

Item 1   may be the date the segment was updated.

Item 2   may be the system library in which the segment is maintained.

               TOOLS   is the maintenance tools library

               SSS   is the standard service system

               AM   is the author maintained library
                         (installation maintained software is
                                currently kept in AM also)

               LANG   is the languages library.

Item 3   is the name of the segment or component being updated.

Item 4   is the action which was taken:
                 added   replaced
                 deleted   moved

NOTE: . The library name and date will appear only before the names of
          bound segments or single unbound segments, but will not
          appear before the names of object components within bound
          segments. Therefore, if no date or library name appears,
          you may assume that the name refers to an object component.
          Just trace down to the next date and library name to learn the
          name of the object segment itself.

          Note that a notation is made when a library segment is
          renamed at the same time that it is being replaced in the
          libraries. This notation will appear as another line in
          parentheses below the objectname line.

          Note also that help files are recorded as a one-line change
          as if they were object segments.

```
                    backup_dump_recurse replaced

                    bk_output replaced

                    start_dump replaced

10/30/73:  TOOLS    bound_dumper_ replaced

10/30/73:  INFO     fortran_stop.info added

                    listing_tape_dictionary deleted

                    listing_tape_print added

                    lts_tape_ replaced

                    lts_Dbuild_ replaced

                    lts_file_ replaced

10/30/73:  TOOLS    bound_listing_tape_ replaced

                    backup_dump_recurse de-installed

                    bk_output de-installed

                    start_dump de-installed

10/30/73:  TOOLS    bound_dumper_ de-installed

                    full_command_processor_ replaced

10/31/73:  SSS      bound_full_cp_ replaced
```
