DATE: November 29, 1973  
SUBJECT: Installation of BOS 1.29

The BOS system, 1.29, was installed at 7:45 AM on Thursday, November 22, 1973. Change # 001, which replaced glcm.map355 (in d355), fixed a bug in the handling of DataNet 355 status (see also Multics Change # 1193 in MSS 21.3c). Change # 002, which replaced glsa.map355 (in d355), fixed a bug in the handling of 1050-type terminals (see also Multics Change # 1192 in MSS 21.3c). This system was updated at 10:30 AM on Friday, November 23, 1973. Due to a bug in MSS 21.3c, both systems were withdrawn at 10:30 PM on Sunday, November 25, 1973. BOS 1.29 was reinstalled with MSS 21.3d at 2:26 PM on Monday, November 26, 1973.
