FROM: Arlene Scherer

DATE: November 30, 1973

SUBJECT: ONLINE INSTALLATION CHANGES

The following is a list of changes to the standard service system,
maintenance tools, author maintained and installation maintained
libraries for the week beginning November 26, 1973.

            HOW TO READ THIS LISTING:

Item 1   may be the date the segment was updated.

Item 2   may be the system library in which the segment is maintained.

                    TOOLS   is the maintenance tools library

                    SSS   is the standard service system

                    AM   is the author maintained library
                                (installation maintained software is
                                        currently kept in AM also)

                    LANG   is the languages library.

Item 3   is the name of the segment or component being updated.

Item 4   is the action which was taken:
                    added   replaced
                    deleted   moved

NOTE: The library name and date will appear only before the names of
            bound segments or single unbound segments, but will not
            appear before the names of object components within bound
            segments. Therefore, if no date or library name appears,
            you may assume that the name refers to an object component.
            Just trace down to the next date and library name to learn the
            name of the object segment itself.

            Note that a notation is made when a library segment is
            renamed at the same time that it is being replaced in the
            libraries. This notation will appear as another line in
            parentheses below the objectname line.

            Note also that help files are recorded as a one-line change
            as if they were object segments.

```
                       update_include replaced

                       cleanup replaced

11/27/73:  TOOLS       bound_lib_utility_ replaced

                       teco deleted

                       int_temp_seg_ deleted

                       teco_get_macro_ deleted

                       teco_backup_file_ deleted

                       teco_error deleted

11/27/73:  AM          bound_old_teco_ deleted

11/27/73:  AM          old_memo deleted

11/28/73:  INFO        command_environment_changes.info added

11/28/73:  IIS         pending_changes.info replaced

                       temp_mgr_ replaced

11/28/73:  SSS         bound_binder_ replaced

                       delete_ replaced

11/28/73:  SSS         bound_fscom1_ replaced

                       dump_segment replaced

11/28/73:  SSS         bound_misc_commands_ replaced

11/28/73:  INFO        new_basic.info added

11/28/73:  INFO        new_basic_system.info added

11/28/73:  INFO        basic_differences.info added

                       temp_mgr_ de-installed

11/29/73:  SSS         bound_binder_ de-installed

11/29/73:  INFO        command_environment_changes.info replaced

11/29/73:  TOOLS       network_exec.ec replaced
```
