Subject: Installation of BOS 1.32

    The BOS system, 1.32, was updated at 3:00 PM on Thursday,
January 17, 1974.   Change # 0008, which replaced the include file
nextline.incl.alm and recompiled setup.alm and util.alm, fixed a
bug in the processing of BOS runcoms.   There was no MCR for this
change.
