 SUBJECT: Installation of MSS 23.2

The hardcore system, MSS 23.2, was installed at 12:56 PM on Saturday, February 9, 1974. This system included the software changes required to convert from the DSU-190 disks to the DSU-191 disks. The system libraries were updated with MSS 23.2 at 7:24 PM on Monday, February 11, 1974. MSS 23.1, which was to have installed `lox_`, was not installed due to problems with `lox_`; `lox_` will be installed with a later system.
