Subject:   Installation of Salvager 2.27

The Salvager system 2.27 was updated at 1:05 PM on Thursday,
February 14, 1974.  Change # 0004 (MCR's 071 and 233) replaced
init_salv_fsdcts.pl1 in bound_offline_salvager to make it
usable with the DSU-191 disks.  In addition, this is the first
salvager to incorporate the changes made to the hardcore segment
bound_salvager for MSS 22.0.
