

TO: MIB DISTRIBUTION
 FROM: Arlene Scherer
 DATE: February 22, 1974
 SUBJECT: ONLINE INSTALLATION CHANGES

The following is a list of changes to the standard service system, maintenance tools, author maintained and installation maintained libraries for the week beginning February 19, 1974.

HOW TO READ THIS LISTING:

- Item 1 may be the date the segment was updated.
 Item 2 may be the system library in which the segment is maintained.

TOOLS is the maintenance tools library

SSS is the standard service system

AM is the author maintained library
 (installation maintained software is
 currently kept in AM also)

LANG is the languages library.

- Item 3 is the name of the segment or component being updated.

- Item 4 is the action which was taken:
 added replaced
 deleted moved

NOTE: The library name and date will appear only before the names of bound segments or single unbound segments, but will not appear before the names of object components within bound segments. Therefore, if no date or library name appears, you may assume that the name refers to an object component. Just trace down to the next date and library name to learn the name of the object segment itself.

Note that a notation is made when a library segment is renamed at the same time that it is being replaced in the libraries. This notation will appear as another line in parentheses below the objectname line.

Note also that help files are recorded as a one-line change as if they were object segments.

Multics Project internal working documentation. Not to be reproduced or distributed outside the Multics Project.

status replaced

02/19/74: SSS bound_fscom2_ replaced

process_input_string_ replaced

02/19/74: SSS bound_full_cp_ replaced

get_entrypoint_name_ deleted

find_op_ deleted

find_fault_frame_ deleted

trace_stack replaced

trace_stack_ replaced

interpret_ptr_ replaced

list_frame_args_ replaced

get_entry_arg_descs_ added

list_onunits_ replaced

print_source_line_ replaced

extract_source_line_ added

dump_machine_cond_ replaced

02/19/74: SSS bound_trace_stack_ replaced

02/19/74: INCL interpret_ptr_struct.incl.pl1 replaced

listcaci deleted

setcaci deleted

02/20/74: SSS bound_access_commands_ replaced
