SUBJECT: ONLINE INSTALLATION CHANGES

The following is a list of changes to the standard service system,
maintenance tools, author maintained and installation maintained
libraries for the week beginning May 20, 1974.

    HOW TO READ THIS LISTING:

    Each modification is preceded by the MCR number covering
    it (if there is one), and a brief explanation of the
    change.

    This information is followed by the name of the object
    segment, help file, include file, or bound segment
    (or group of the above) involved in the modification.

    Also given is the date and time of installation,
    and the name of the system library to which the change
    was made.

    For bound segments, a list of the components follows,
    as well as the action which was taken with regard to
    each component.

    An explanation does not accompany the listing of a
    segment which was "de-installed", or removed because
    of some problem, but the original installation infor-
    mation may be considered inoperative.

*****
NO MCR: Two new info segments were added for basic. They are
basic_changes and basic_status.

05/21/74   1303.1   basic.info replaced in INFO

05/21/74   1303.1   basic_changes.info added to INFO

05/21/74   1303.1   basic_status.info added to INFO

*****
MCR 279: Several obsolete segments and entry points were removed
from the libraries.

05/21/74   1523.9   bound_misc_commands_ replaced in SSS

        deleted: acm_

05/21/74   1523.9   adjust_device deleted from TOOLS

05/21/74   1523.9   bound_force_detach_ deleted from TOOLS

        deleted: force_printer_detach
                    force_tape_detach

05/21/74   1523.9   bound_fscom1_ replaced in SSS

       replaced: delete
                    change_wdir

05/21/74   1523.9   bound_ti_term_ replaced in SSS

        deleted: make_obj_map_

*****
