

TO: MIB DISTRIBUTION
FROM: Arlene Scherer
DATE: July 26, 1974
SUBJECT: ONLINE INSTALLATION CHANGES

The following is a list of changes to the standard service system, maintenance tools, author maintained and installation maintained libraries for the week beginning July 22, 1974.

HOW TO READ THIS LISTING:

Each modification is preceded by the MCR number covering it (if there is one), and a brief explanation of the change.

This information is followed by the name of the object segment, help file, include file, or bound segment (or group of the above) involved in the modification.

Also given is the date and time of installation, and the name of the system library to which the change was made.

For bound segments, a list of the components follows, as well as the action which was taken with regard to each component.

An explanation does not accompany the listing of a segment which was "de-installed", or removed because of some problem, but the original installation information may be considered inoperative.

MCR's 306, 576: Segment bound_binder_ was replaced to allow the binder to know about the new definition bit and to add bindfile info to the bindmap. Affected routines in bound_segment_info_ were also changed.

07/24/74 1414.3 bound_binder_ replaced in SSS

replaced: bind
bx_
binder_
temp_mgr_
dissect_object_
rebuild_object_
int_link_
generate_def_
make_defs_
parse_bindfile_
incorporate_options_
make_bindmap_
old_make_bindmap_

07/24/74 1414.3 bound_segment_info_ replaced in SSS

replaced: form_bind_map_
decode_definition_

07/24/74 1414.3 input.incl.pl1 replaced in INCL

07/24/74 1414.3 bind_map.incl.pl1 replaced in INCL

07/24/74 1414.3 insym.incl.pl1 replaced in INCL

MCR 486: The mstrds command was added to TOOLS to allow the user to specify the record size when writing a Multics standard tape. Please type "help mstrds".

07/25/74 1454.9 mstrds added to TOOLS

07/25/74 1454.9 mstrds.info added to INFO

07/25/74 1527.8 pending_changes.info replaced in IIS
