

TO: MIB DISTRIBUTION
FROM: Arlene Scherer
DATE: August 9, 1974
SUBJECT: ONLINE INSTALLATION CHANGES

The following is a list of changes to the standard service system, maintenance tools, author maintained and installation maintained libraries for the week beginning August 5, 1974.

HOW TO READ THIS LISTING:

Each modification is preceded by the MCR number covering it (if there is one), and a brief explanation of the change.

This information is followed by the name of the object segment, help file, include file, or bound segment (or group of the above) involved in the modification.

Also given is the date and time of installation, and the name of the system library to which the change was made.

For bound segments, a list of the components follows, as well as the action which was taken with regard to each component.

An explanation does not accompany the listing of a segment which was "de-installed", or removed because of some problem, but the original installation information may be considered inoperative.

MCR's 656,668, 669,670: The I/O coordinator was replaced to fix a bug which resulted in cropping of queues, to fix a bug which sometimes caused a file to be deleted if modified after
Inting, to make "test" mode work properly, and to allow attempts to restart for a given device class only apply to requests originally performed by that class.

08/08/74 1458.9 bound_iodc_ replaced in TOOLS

replaced: iodc_
save_request_
free_oldest_request_

MCR 510: The remote device driver was replaced to allow for the new g115 DIM interface.

08/08/74 1501.4 bound_iodd_ replaced in TOOLS

replaced: iodd_listen_
remote_
input_cmd_
output_request_
iodd_quit_handler

MCR 672, 693: The dumper was recompiled for EIS, and changed to not set dates in debug mode. The dumper-id for the maps has been
changed to "31 July 1974".

08/08/74 1517.5 bound_dumper_ replaced in TOOLS

replaced: backup_dump
backup_dump_recurse
bk_output
start_dump
sort_branches
backup_cleanup

08/08/74 1527.5 pending_changes.info replaced in IIS

MCR 555: The net_host_status command was added to the Network library in the first Network library installation. Please type "help nhs" for more information.

08/08/74 1545.6 net_host_status added to NET

MCR's 397, 628, 671, 685: The online submission tests were replaced to handle the NET library and to use the "-rn" feature of get_library_segment. Two bugs were fixed in
get_library_segment: the first occurred when name_dups receiving a "yes" answer from the user were not properly handled; The second occurred when trying to fetch any name containing only two characters (of two characters plus a suffix,

as in lf.pl1).

08/08/74 1641.9 bound_submission_test_ replaced in TOOLS

replaced: object_test_
submission_test
source_test_
del_file_

08/08/74 1641.9 bound_lib_utility_ replaced in TOOLS

replaced: get_library_segment

+++++

08/08/74 1707.4 edm_changes.info de-installed from INFO

(previously installed 08/01/74 1156.1)

+++++

08/08/74 1707.4 edm de-installed from SSS

(previously installed 08/01/74 1156.1)
