MULTICS INSTALLATION BULLETIN

TO: MIB DISTRIBUTION

FROM: Arlene Scherer

DATE: October 18, 1974

SUBJECT: ONLINE INSTALLATION CHANGES

The following is a list of changes to the standard service system,

tools, network, unbundled, author maintained and installation

maintained libraries for the week beginning October 15, 1974.

        HOW TO READ THIS LISTING:

        Each modification is preceded by the MCR number covering
        it (if there is one), and a brief explanation of the
        change.

        This information is followed by the name of the object
        segment, help file, include file, or bound segment
        (or group of the above) involved in the modification.

        Also given is the date and time of installation,
        and the name of the system library to which the change
        was made.

        For bound segments, a list of the components follows,
        as well as the action which was taken with regard to
        each component.

        An explanation does not accompany the listing of a
        segment which was "de-installed", or removed because
        of some problem, but the original installation infor-
        mation may be considered inoperative.

*****
No MCR: Info segments pending_changes.info and
get_library_segment.info were replaced to notify users of the
upcoming changes to gls for the unbundled library. Please type
"help pc" and "help gls".

10/15/74   1535.0   get_library_segment.info replaced in INFO

10/15/74   1535.0   pending_changes.info replaced in IIS

*****
MCR 718: The get_library_segment and cleanup commands were
replaced to know about the upcoming unbundled library. New
control segments unbundled.control (unb.control) and
unbundled.object.control (unb.o.control) were added. Control
segments online_systems.control and
online_systems.object.control were modified to include the
unbundled paths. Please type "help get_library_segment". In
addition, MPRF's 7720 and 7723 were fixed, the first being
incorrect setting of the acl on an extracted segment by gls, and
the second being certain names missing from the gls object
control links.

10/15/74   1637.9   bound_lib_utility_ replaced in TOOLS

           replaced: get_library_segment
                       cleanup

10/15/74   1637.9   unbundled.control added to TOOLS

10/15/74   1637.9   unbundled.object.control added to TOOLS

10/15/74   1637.9   online_systems.control replaced in TOOLS

10/15/74   1637.9   online_systems.object.control replaced in TOOLS

*****
MCR 735: Segment bound_mis_ in T (routine upd_doc_task_) was
replaced to provide automatic documentation for the unbundled
library.

10/15/74   1842.1   bound_mis_ replaced in TOOLS

           replaced: upd_doc_task_

*****
MCR 808: the g115_prt_conv_ routine in bound_g115_ (T) was
replaced to fix a bug which caused two characters to be dropped
when the line is longer than 132 characters.

10/17/74   1345.5   bound_g115_ replaced in TOOLS

           replaced: g115_prt_conv_

*****
MCR 765: The list_ref_names command in SSS was replaced to add
the "-fm" option as an abbreviation for "-from".

10/17/74   1652.2   bound_info_rtns_ replaced in SSS

          replaced: list_ref_names

*****

MCR 591, 592: New compiler and dprint options "-bftb" were
added to the pl1_abs command. The absin segment
translator_absin.absin was also modified to accept a list of
dprint control arguments, and not to append a print_link_info to
listing segments.

10/18/74   1230.6   bound_absentee_com_ replaced in SSS

          replaced: pl1_abs

10/18/74   1230.6   translator_absin.absin replaced in SSS
