

TO: MIB DISTRIBUTION
FROM: Arlene Scherer
DATE: November 29, 1974
SUBJECT: ONLINE INSTALLATION CHANGES

The following is a list of changes to the standard service system, tools, network, unbundled, author maintained and installation maintained libraries for the week beginning November 25, 1974.

HOW TO READ THIS LISTING:

Each modification is preceded by the MCR number covering it (if there is one), and a brief explanation of the change.

This information is followed by the name of the object segment, help file, include file, or bound segment (or group of the above) involved in the modification.

Also given is the date and time of installation, and the name of the system library to which the change was made.

For bound segments, a list of the components follows, as well as the action which was taken with regard to each component.

An explanation does not accompany the listing of a segment which was "de-installed", or removed because of some problem, but the original installation information may be considered inoperative.

Multics Project internal working documentation. Not to be reproduced or distributed outside the Multics Project.

MCR's 761,762, 818: In bound_admin_rtnes_, system_monthly_report was replaced to correct total memory units and percentage changes in statistical quantities printed on monthly usage reports

(762 and 818). In b_and_w, a bug was fixed so that black and white charts will have correct information for times at the beginning of a month. (761).

11/25/74 1528.4 bound_admin_rtnes_ replaced in TOOLS

replaced: b_and_w
system_monthly_report

MCR 828: The check_info_segs command was replaced in SSS to allow the use of a long command line with the "-call" option.

11/25/74 1533.9 bound_info_rtns_ replaced in SSS

replaced: check_info_segs

MCR 599: The create_lines_file command in T was replaced to make it operational, add an option to skip over and comment out specified tty's, and to remove calls to phcs_.

11/25/74 1539.0 bound_admin_tools_ replaced in TOOLS

replaced: create_lines_file

MCR 827: The link_unsnap_ subroutine in SSS was replaced to allow LOT segments to begin other than at the base of a segment.

11/27/74 1242.0 bound_ti_term_ replaced in SSS

replaced: link_unsnap_

No MCR: A new info segment was added to IIS. Please type "help graphics_users".

11/27/74 1257.4 graphics_users.info added to IIS
