

TO: MIB DISTRIBUTION
FROM: Arlene Scherer
DATE: January 31, 1975
SUBJECT: ONLINE INSTALLATION CHANGES

The following is a list of changes to the standard service system, tools, network, unbundled, author maintained and installation maintained libraries for the week beginning January 27, 1975.

HOW TO READ THIS LISTING:

Each modification is preceded by the MCR number covering it (if there is one), and a brief explanation of the change.

This information is followed by the name of the object segment, help file, include file, or bound segment (or group of the above) involved in the modification.

Also given is the date and time of installation, and the name of the system library to which the change was made.

For bound segments, a list of the components follows, as well as the action which was taken with regard to each component.

An explanation does not accompany the listing of a segment which was "de-installed", or removed because of some problem, but the original installation information may be considered inoperative.

Multics Project internal working documentation. Not to be reproduced or distributed outside the Multics Project.

No MCR: A command was added to the AML which allows users to compute the cost of given amounts of CPU time, memory units, and connect time. Please type "help calc_costs".

01/30/75 1659.3 calc_costs added to AM

01/30/75 1659.3 calc_costs.info added to IIS

No MCR: The gate_macros tool was deleted because it is obsolete.

01/31/75 1243.7 gate_macros deleted from TOOLS

MCR 912: The change_tuning_parameters and print_tuning_parameters commands were changed to allow for the new tuning parameters; the traffic_control_queue command was changed to print timax for each process in the queue.

01/31/75 1252.9 bound_misc_metering_ replaced in TOOLS

replaced: traffic_control_queue
change_tuning_parameters
print_tuning_parameters

01/31/75 1252.9 tcm.incl.pl1 replaced in INCL
