FROM: Arlene Scherer
DATE: February 21, 1975
SUBJECT: ONLINE INSTALLATION CHANGES

The following is a list of changes to the standard service system, tools, network, unbundled, author maintained and installation maintained libraries for the week beginning February 18, 1975.

HOW TO READ THIS LISTING:

Each modification is preceded by the MCR number covering it (if there is one), and a brief explanation of the change.

This information is followed by the name of the object segment, help file, include file, or bound segment (or group of the above) involved in the modification.

Also given is the date and time of installation, and the name of the system library to which the change was made.

For bound segments, a list of the components follows, as well as the action which was taken with regard to each component.

An explanation does not accompany the listing of a segment which was "de-installed", or removed because of some problem, but the original installation information may be considered inoperative.

Multics Project internal working documentation. Not to be reproduced or distributed outside the Multics Project.

MCR's 807, 819: The online updater, bound_mis_ was replaced to allow setting of the max length attribute on segments installed in the libraries.

02/18/75 1629.4 bound_mis_ replaced in TOOLS

```
replaced: update_seg
          upd_install_task_
          upd_copy_seg_task_
          upd_doc_task_
          upd_log_task_
          bound_mis_.bind
```

MCR's 417, 958: The full command processor was replaced to use EIS and to fix a bug in the "do" command.

02/18/75 1735.0 bound_full_cp_ replaced in SSS

```
replaced: do
          find_command_error_
          full_find_command_
          full_command_processor_
          proc_quotes_
          proc_parens_
          eval_ec_if_test_
          length
          index_set
          user
          system
          path
          query
```

MCR's 886, 898: The library ACL commands were incorporated into the set_acl command, and a transfer vector was established in Tools for their use.

02/20/75 1444.4 bound_access_commands_ replaced in SSS

```
replaced: set_acl
          bound_access_commands_.bind
```

02/20/75 1444.4 bound_lib_utility_ replaced in TOOLS

```
added: access_commands_tv_

replaced: bound_lib_utility_.bind

deleted: llistacl
         lsetacl
```

No MCR: The cv_char_ routine in the tape_ansi_ I/O module was changed to translate the ASCII "i" to the EBCDIC "i" in a form acceptable to OS PL/1 compilers.

02/20/75 1507.9 bound_tape_ansi_ replaced in AM

replaced: cv_char_
