Subject: Installation of MSS 25.1a

The hardcore system, MSS 25.1a, was installed at 9:00 AM on

Thursday, March 6, 1975. Change # 1439 (no MCR yet), which

replaced formline_.alm in bound_sss_wired_ and imp_input_processor.pl1

in bound_imp_status, fixed a bug in formline_ which had resulted in

several system crashes and fixed a problem in the imp dim which

had resulted in network problems. The system libraries were

updated at 3:25 PM on Thursday, March 6, 1975.
