SUBJECT: ONLINE INSTALLATION CHANGES

The following is a list of changes to the standard service system, tools, network, unbundled, author maintained and installation maintained libraries for the week beginning August 11, 1975.

HOW TO READ THIS LISTING:

Each modification is preceded by the MCR number covering it (if there is one), and a brief explanation of the change.

This information is followed by the name of the object segment, help file, include file, or bound segment (or group of the above) involved in the modification.

Also given is the date and time of installation, and the name of the system library to which the change was made.

For bound segments, a list of the components follows, as well as the action which was taken with regard to each component.

An explanation does not accompany the listing of a segment which was "de-installed", or removed because of some problem, but the original installation information may be considered inoperative.

MCR's 1136, 1144, 1276: Answering service 8.1 was installed in TOOLS as a preparation for the Priority Scheduler, RCP, and, Syserr Log management packages to be installed later.

MCR: 1278: Components of bound_basic_runtime_ found in the unbundled library have been changed. With these new versions basic will now be more amenable to debugging.

08/12/75 1609.0 bound_basic_runtime_ replaced in UNB

replaced: basic_operators_
basic_runtime_
basic_matrix_
basic_find_proc_

08/12/75 1609.0 basic_operators_frame.incl.pl1 replaced in INCL

MCR: 1294: The component print_gen_info_ of bound_gm_ has been replaced in the tools library. The new version will now work with the new object_info_ structure.

08/13/75 1336.0 bound_gm_ replaced in TOOLS

replaced: print_gen_info_

MCR: 1325: A new bound segment called bound_mpc_tools_ has been added to the tools library. Within this bound segment is found the load_firmware_file command and the firmware_util_ subroutine.

08/13/75 1402.2 bound_mpc_tools_ added to TOOLS

added: load_firmware_file
firmware_util_
bound_mpc_tools_.bind

MCR: 1344: The component broadcaster_ of bound_broadcaster_ has been changed in the sss library. The change was made so that the broadcast dim would continue to work with the new ios_ writearound procedure.

08/15/75 1146.4 bound_broadcaster_ replaced in SSS

replaced: broadcaster_

MCR: 1343: The component mrd_util_ of bound_oprcons_ has been replaced in the tools library. This change makes the message coordinator return the event channel on every read_status order call.
