Mr. Henry Nye  
General Electric Company  
575 Technology Square  
Cambridge, Massachusetts 02139

Dear Henry:

Please arrange, as soon as possible, for the release of one DSU10 serial number 112.

There is currently no need for this storage capacity in view of the DSU 270 availability and it naturally contributes to the field engineering load.

When you have arranged for shipping, please let us know.
