TO: J. W. GINTELL

FROM: C. T. CLINGEN

In order to insure an equitable distribution of TTY adapters and channels on the service machine, we must coordinate our requirements for 8 CISL lines into the service GIOC with MIT's requirements. Will you please see to it that our requirements are coordinated with Saltzer, who is working on the MIT side of the problem, as soon as possible.

C. T. CLINGEN

/11

8 lines from board to GIOC  
 8 dataphones

Our telephone rep, Jim Lawler, has agreed to use the physical data sets that MIT releases  
 Installation 5 weeks from 6/20

To be used for

- 1 1050 in Barry Wolman's home
- 6 tty 37's in Clingen's, Freiburg's, Meers's, Vinograd's, Mills's, Gintell's homes
- 2 tty 37's in CISL 1st floor

possibly eventually for

- 2 terminal 300's in CISL 2nd floor which
