Dear Gerry:

Thanks for your letter of September 28, 1973, firmly outlining the charter of the Software Documentation Unit. I think that your letter was exactly what was needed to knock things off dead center and help us get this gap covered. I enclose a copy of a letter I am sending to Charlie Clingen as the next step in making sure that advance documentation remains properly covered.

Good luck in your efforts to acquire more input typing support. If I can be of any help please let me know.

Sincerely yours,

Jerome H. Saltzer
