HARDWARE. ED Kleinow

- 190 Dual Channel - The DCH190 has been installed and is being checked-out. Four drives are working; six have to be checked-out.
- MTH500 Dual Channel - This hardware is installed but not working. FED will work on this unit after completion of DCH190.
- Bulk Store - One stack failure, FED replaced and it ran okay.
- Printers - Both printers are having a significant number of hanging problems. FED will monitor closely.
- 191 Firmware - Received four hours of FCO for MPC.

SOFTWARE. D Jordan

--Reference Software "Bug List"

- Bug #233 - New bug - Snider assigned.
- Bug #229 - Fix has been installed.
- Bug #227 - Fix has been installed.
- Bug #198 - Trap has been installed
- Bug #163 - Fix installed
- Bug #157 - Same status. Problem assignment changed from Wells to Snider.

Equipment To Be Installed

Burner requested that we place the additional 190 shipment in a HOLD status.
